Introduction:

Respect for human rights has become a strong trend internationally. Kyoto Prefecture is moving forward with projects to find a solution to human rights problems, such as discrimination, in order to realize a society in which dignity and human rights between individuals are respected. Everybody must be guaranteed the right to fulfill their desires pertaining to study, gaining qualifications for enrollment in a particular school, and entering work of their choice.

In order that the fulfillment of enrolling into schools, learning at schools, skill acquisition and entering work is not restricted by financial constraints, Kyoto Prefecture provides a multi-tiered support system. As detailed in article 97 of the Japanese constitution, 'fundamental human rights are the fruit of years of effort by mankind for gaining freedom'. Likewise, this support system has been built-up due to the efforts of our predecessors.

Those interested in receiving support should consult in depth with their parents/guardians and teachers at school and then make full use of the system in order to open up their future and create a society in which mutual human rights are respected.

- Kyoto prefectural municipalities organize other support systems independently. Please do not hesitate to make necessary enquiries to your local municipal government.
- The place for applications may vary according to the municipality.
 The contents of the articles contained within this guide may be partially subject to change.
- Kyoto City, an ordinance designated city, organizes support systems independently.
 For any details, please contact the Kyoto City government offices or call the Kyoto City Consultation
 Center (kyouto-itsudemo-coru) at 075-661-3755 between 8:00 am and 9:00 pm.
 The center is open seven days a week.

	*Classification: If the child does not have an older sibling in the first, second, or third year of elementary school, they are defined as the "first-born" child. If the child has an older sibling in the fourth year of elementary school or above, the child is defined as the "first-born". In the event that the same household has more than two of their children enrolling in kindergarten, the eldest pupil will be counted as the "first-born", the second eldest as the "second-born", and the third eldest and further as the "third-born and any further children". In the event that kindergarten pupils have a sibling within the same household who is in the first, second, or third year of elementary school, the "first-born" child is the eldest child in the first, second, or third year of elementary school, therefore, kindergarten pupils are not eligible for this grant. *The grant amounts will be reduced (amounts be monthly adjusted) for those entering or leaving mid-year. *Standards for means-tested municipal resident tax vary according to the number of children
