

Title : Cultivating human resources who will shape the future of Japan as a leading country that shows the world how to solve global problems ~Bringing the wisdom of Kyoto to the world~

"Advanced Learning Network Kyoto", a new educational system, recreates the value of "richness" through three Kyoto strategies and leads Japan and the world.

Ideal human resource

Human resources who can create new values common to all humankind and a sustainable society through the cooperation with those who have different cultural backgrounds, while utilizing the wisdom and values that have been handed down over a long history.

Six qualities & abilities to be cultivated

Tradition · Culture

Innovation

Solution

- ① Ability to overview the world from a historical perspective
- ② Ability to collaborate with people from various cultural backgrounds
- ③ Ability to think and examine scientifically
- ④ Ability to create new values
- ⑤ Ability to design a framework for problem solving
- ⑥ Ability to break through difficult situations

Kyoto Strategy 1 :

To provide opportunities for highly advanced learning

◆ **Overseas Internship**

Work experience at global companies that is regarded as credits

◆ **Kyoto F Learning**

Receiving credits for college-level education while being in high school

◆ **STEAM Education**

Learning to integrate the humanities and sciences using materials in Kyoto as subjects

◆ **Kyoto Traditions and History**

Learning to experience the essence of Kyoto's traditions and history

Kyoto Strategy 2 :

To create opportunities for global and diverse collaborative learning

◆ **Innovation Studies I II III**

Studies on issues to create a sustainable future society

◆ **Overseas satellite school project**

Receiving credits for mid-term study abroad

◆ **"Smart AP"**

Kyoto Prefectural Common Curriculum

Learning research skills and qualities from university teachers

◆ **Kyoto WWL High School Summit**

Meeting for new value creation by high school students from around the world

Kyoto Strategy 3 :

To share and disseminate the fruits of the R & D

◆ **Kyoto WWL Platform**

- Information sharing through portal sites
- Accumulation of teaching plans and materials
- Dissemination of the fruits of the R&D

◆ **Kyoto WWL Forum**

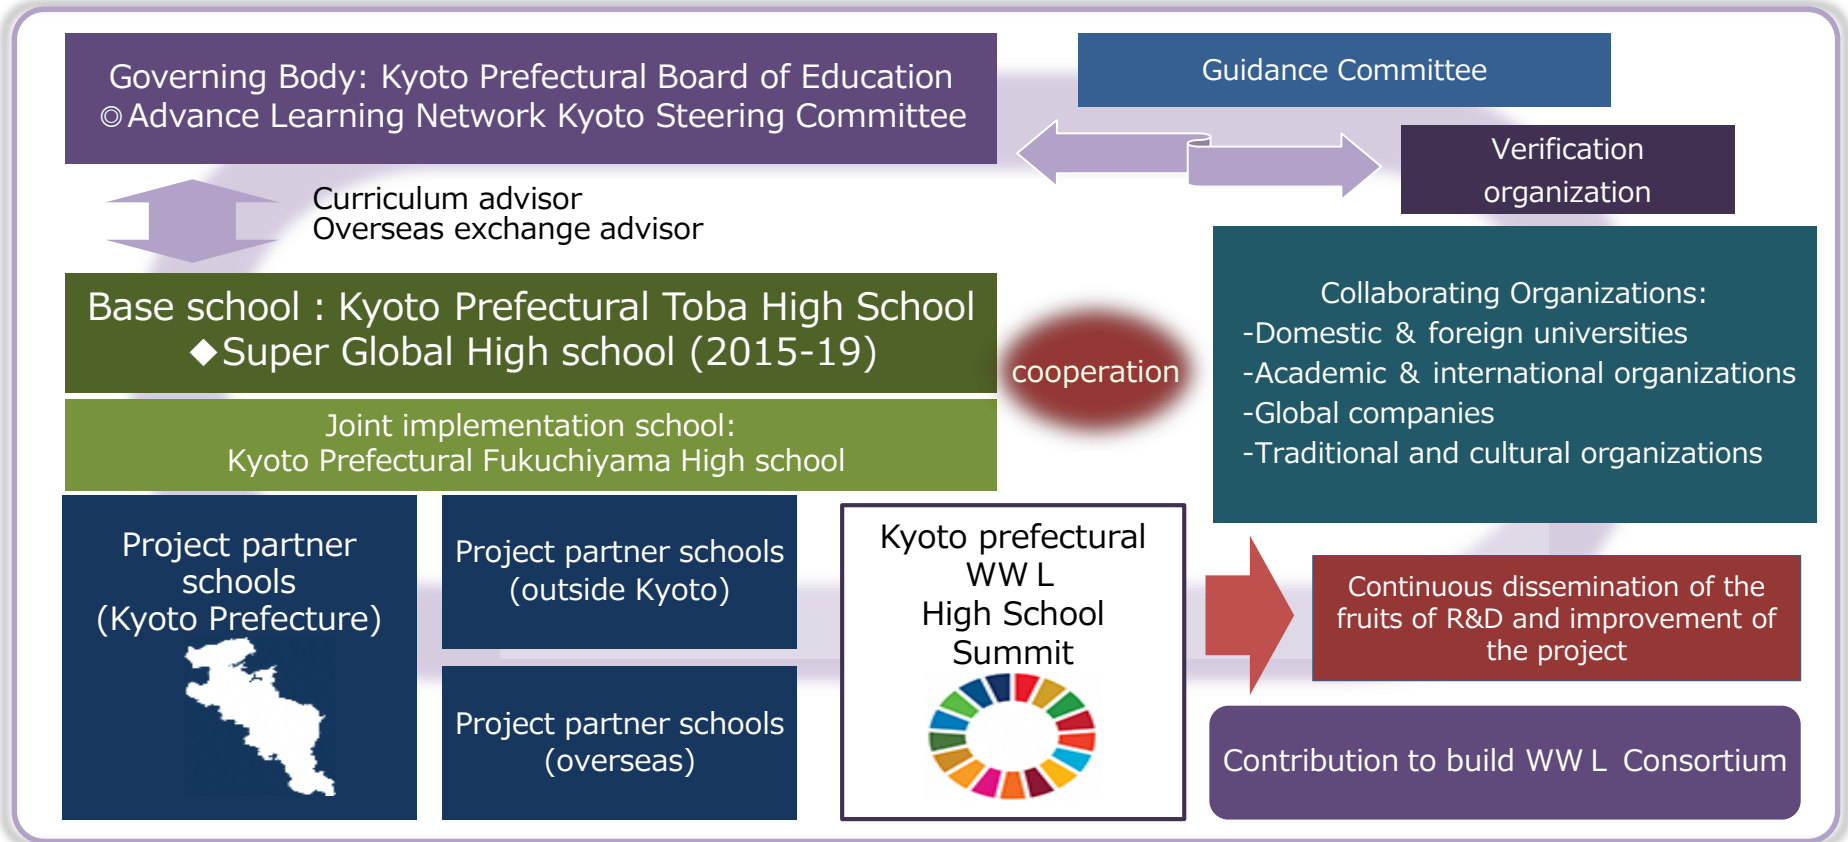

Transmission of the information related to the fruits of the R&D

◆ **Kyoto WWL Teacher training**

Collaborative training among teachers around the world

Global social issues to be set

Creating a sustainable future society by recreating the value of “richness”
